

Didier Morandet

Adjuster since 1996

ADJUSTING FIELDS

Industrial claims

High power electronics
Electronics
Electrical engineering
Robotics

Instruments and laboratories

Laboratory apparatus
Setting up measurement systems in the biological and medical sphere

SIGNIFICANT LOSSES

Lock gate failure causing damage to a gas carrier and suspension of navigation (€20M).

Storm-related damage to port cranes under refurbishment (€2M)

Fire on a medium-voltage circuit breaker bulb processing line (€8M)

Failure in agri-food process leading to supply chain disruptions in major retail stores (€2M)

PROFESSIONAL EXPERIENCE

INSERM

Designing and manufacturing of measurement equipment for cellular biology

TRAINING

Certification EEA (CNPP): Equipment and installations

Qualified European Adjuster: FUEDI-ELAE

Master's degree in Electronics, Electrical engineering, robotics

Doctorate in medical and biological Instrumentation

LANGUAGES

French, English
